PROFESSIONAL SUMMARY

Mobile Application Developer with 2+ years of experience building production Android (Java, Kotlin) and iOS (SwiftUI, UIKit) applications. Skilled in developing responsive mobile applications, integrating REST APIs, Firebase, third-party SDKs, and secure payment gateways (Razorpay and Stripe). Published 15+ apps on the Google Play Store and Apple App Store across e-learning, education, social, gaming, and utility domains.

EXPERIENCE

Hawkscode Pvt. Ltd.

Jan. 2025 – Present

Software Developer

- Developed and maintained 12+ production mobile applications using Android (Java, Kotlin) and iOS (SwiftUI, UIKit) across e-learning, education, social, gaming, and utility domains, with apps published on the Google Play Store and Apple App Store.
- Implemented responsive, user-friendly mobile interfaces, and integrated third-party SDKs including Agora for real-time voice communication, and Razorpay and Stripe for secure in-app payment processing.
- Collaborated with cross-functional teams to integrate backend services, optimize application performance, fix production issues, and deliver high-quality mobile applications following industry best practices.

Ahead Websoft Technology

Feb. 2024 – May 2024

Android Developer Intern

- Built and enhanced Android features using Java and Kotlin on 2 live production projects, covering the full Android SDK development lifecycle from design to Play Store deployment.
- Participated in code reviews and sprint planning with a senior developer team, improving code quality and reducing bug backlog by 20%.

Brudite Pvt. Ltd.

Aug. 2023 – Jan. 2024

Associate Software Developer Intern

- Learned Core Java, Advanced Java, and Spring Boot through hands-on development of small practice projects.
- Gained practical exposure to AWS services including EC2, S3, and Lambda, with a basic understanding of cloud deployment concepts.

EDUCATION

Poornima Institute of Engineering and Technology

Sep. 2020 – May 2024

Bachelor of Technology in Computer Science

- CGPA: 8.4 / 10
- Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, Software Engineering.

TECHNICAL SKILLS

Mobile Development: Android, iOS, Kotlin, Java, Swift, SwiftUI, UIKit, Storyboard, XML, Android SDK

Architecture and Patterns: MVVM, Clean Architecture, Dependency Injection

Libraries and SDKs: Agora SDK, Retrofit, OkHttp, Firebase, Google Maps SDK, Razorpay, Glide, Coroutines

Tools: Android Studio, Xcode, IntelliJ IDEA, Postman, VS Code, JIRA, GitHub

PROJECTS

Funzo: Social and Gaming Hub | Kotlin, Java, MVVM, Agora SDK, Firebase

Nov. 2025 – Jan. 2026

- Developed Android frontend features for a real-time social gaming application using Kotlin and Java, delivering responsive UI and seamless user experiences.
- Integrated Agora SDK to enable high-quality live voice rooms supporting up to 21 concurrent participants per room, along with real-time room interactions.
- Implemented social and gaming features including Clan Family, SVIP progression, CP system, rewards, and interactive mini-games while following the MVVM architecture. [Play Store]

EasyShiksha: E-Learning and Internship Platform | Android (Java, XML), iOS (SwiftUI), REST API

Feb. 2025 – Present

- Developed cross-platform Android and iOS applications for a leading ed-tech platform serving 100,000+ registered users across 1,000+ internship and certification programs.
- Integrated Razorpay payment gateway, user certification modules, and internship tracking features; maintained a 99%+ crash-free session rate across both platforms.
- Implemented offline caching on Android using Room DB and optimized API calls with Retrofit, reducing load time by 40%. [Play Store] — [App Store]

Thrive Black Car: Luxury Transport | Android (Kotlin, XML), iOS (SwiftUI), Google Maps SDK

Aug. 2025 – Present

- Built a dual-role (customer and driver) chauffeur booking application for the Atlanta market, delivering real-time ride scheduling and driver dispatch across Android and iOS.
- Implemented Google Maps SDK integration for route optimization, reducing average booking flow to under 3 taps. [Play Store] — [App Store]

Career Helper: Test and Consult | Android (Java, XML), iOS (SwiftUI)

Mar. 2025 – Present

- Built an assessment platform offering IQ, psychometric, and career-aptitude tests, helping users identify strengths and optimal career paths based on skill profiles.
- Integrated a personalized recommendation engine matching users to career paths based on their skill profiles; achieved an 80%+ test completion rate and strong user satisfaction scores. [Play Store] — [App Store]

ACHIEVEMENTS

15+ Applications Deployed on Play Store and App Store | Portfolio

2024 – Present

- Independently designed and developed 15+ production-grade mobile applications on Google Play Store and Apple App Store, spanning e-learning, education, social, gaming, and utility domains.
- Demonstrated end-to-end mobile application development ownership from requirement analysis and UI/UX design through development, testing, deployment, and post-launch maintenance.

Microsoft Azure Data Fundamentals (DP-900) | Microsoft

June 2022

- Earned Microsoft official certification validating foundational knowledge of cloud data concepts, Azure data services, and relational and non-relational data workloads.
