Professional Summary

Cross-platform Mobile Application Developer with 2+ years of hands-on experience building and shipping production Android (Kotlin, Java) and iOS (SwiftUI, UIKit) applications. Proficient in Android SDK, iOS SDK, MVVM and Clean Architecture, Jetpack components (Compose, LiveData, ViewModel, Room, Navigation, WorkManager), and dependency injection using Hilt and Dagger. Skilled in REST API integration with Retrofit and OkHttp, real-time features via Agora SDK, Firebase, and payment gateway solutions (Razorpay, Stripe). Delivered 15+ apps live on Google Play Store and Apple App Store across social, e-learning, luxury transport, and enterprise domains. Experienced in unit testing with JUnit and Espresso, and Agile/Scrum delivery in cross-functional teams. Additionally proficient in Java, Spring Boot, and AWS cloud services.

Experience

Hawkscod Pvt. Ltd.

Software Developer

Jan. 2025 – Present

Jaipur, Rajasthan, India

- Engineered and shipped 12+ production Android (Kotlin/Java) and iOS (SwiftUI) applications across social, e-learning, and luxury transport domains, live on Google Play Store and Apple App Store.
- Integrated Agora SDK for real-time voice room features supporting 100+ concurrent users; implemented secure payment gateways (Razorpay, Stripe) across 3 client projects.
- Built role-based authentication systems and RESTful API integrations using Retrofit and OkHttp, following MVVM architecture, Clean Architecture principles, and dependency injection with Hilt.
- Configured mobile CI/CD pipelines using GitHub Actions and Fastlane, automating build, test, and deployment workflows and reducing release cycle time.
- Wrote unit and instrumentation tests using JUnit and Espresso, maintaining high code coverage and reducing production bug rate.
- Collaborated in Agile/Scrum sprints with cross-functional teams of 5–8 members, consistently delivering features on schedule across multiple parallel client projects.

Ahead Websoft Technology

Android Developer Intern

Feb. 2024 – May 2024

Gurgaon, Haryana, India

- Built and enhanced Android features using Java and Kotlin on 2 live production projects, covering the full Android SDK development lifecycle from design to Play Store deployment.
- Participated in code reviews and sprint planning with a senior developer team, improving code quality and reducing bug backlog by 20%.

Brudite Pvt. Ltd.

Associate Software Developer Intern

Aug. 2023 – Jan. 2024

Jaipur, Rajasthan, India

- Developed RESTful backend services using Java and Spring Boot microservices, and built dynamic frontend interfaces with Angular and TypeScript for end-to-end application delivery.
- Deployed and managed cloud infrastructure on AWS (EC2, S3, RDS), improving application uptime and scalability for a B2B SaaS platform.

Celebal Technologies

Data Engineer Intern

May 2023 – Aug. 2023

Jaipur, Rajasthan, India

- Processed and transformed large-scale datasets using SQL and PySpark, completing all analytical tasks within sprint deadlines across 3 data pipeline projects.
- Built and monitored AWS data pipelines, improving data workflow efficiency and reducing manual processing time by approximately 30%.

Education

Poornima Institute of Engineering and Technology

Bachelor of Technology in Computer Science

Sep. 2020 – May 2024

Jaipur, Rajasthan, India

- CGPA: 8.4 / 10
- Relevant Coursework:** Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, Computer Networks, Software Engineering.

Technical Skills

Mobile Development: Android, iOS, Kotlin, Java, Swift, SwiftUI, UIKit, Storyboard, Jetpack Compose, XML, Android SDK, iOS SDK
Jetpack Components: LiveData, ViewModel, Room DB, Jetpack Navigation, WorkManager, Paging 3
Architecture and Patterns: MVVM, MVC, Clean Architecture, Repository Pattern, Dependency Injection, Hilt, Dagger
Libraries and SDKs: Agora SDK, Retrofit, OkHttp, Firebase, Google Maps SDK, Razorpay, Stripe, Glide, Coroutines, RxJava
Testing: JUnit, Espresso, Mockito, UI Automator, Unit Testing, Instrumentation Testing
Backend: Java, Spring Boot, Microservices, REST API, SQL
Cloud and DevOps: AWS (EC2, S3), Microsoft Azure, GitHub Actions, Fastlane, Git, GitHub
Tools: Android Studio, Xcode, IntelliJ IDEA, Postman, VS Code, JIRA

Projects

Funzo: Social and Gaming Hub | *Kotlin, Java, MVVM, Agora SDK, Firebase, Jetpack Compose* **Nov. 2025 – Jan. 2026**

- Developed a real-time social gaming platform with Agora-powered live voice rooms supporting 100+ concurrent multi-user sessions; achieved 4.2-star rating on Google Play Store at launch.
- Implemented interactive mini-games (Ludo), Clan/Family social systems, and gamified SVIP progression hierarchy to drive user engagement and retention.
- Applied MVVM architecture with LiveData and Repository pattern, and used Hilt for dependency injection, reducing codebase coupling and improving unit testability. [Play Store]

EasyShiksha: E-Learning and Internship Platform | *Android (Java, XML), iOS (SwiftUI), REST API* **Feb. 2025 – Present**

- Developed cross-platform Android and iOS applications for a leading ed-tech platform serving 50,000+ registered users across 1,000+ internship and certification programs.
- Integrated Razorpay payment gateway, user certification modules, and internship tracking features; maintained 99%+ crash-free session rate across both platforms.
- Implemented offline caching using Room DB and optimized API calls with Retrofit, reducing load time by 40%. [Play Store] — [App Store]

Thrive Black Car: Luxury Transport | *Android (Kotlin, XML), iOS (SwiftUI), Google Maps SDK* **Aug. 2025 – Present**

- Built a dual-role (customer and driver) chauffeur booking application for the Atlanta market, delivering real-time ride scheduling and driver dispatch across Android and iOS.
- Implemented Google Maps SDK integration for live tracking, ETA calculation, and route optimization, reducing average booking flow to under 3 taps. [Play Store] — [App Store]

Career Helper: Test and Consult | *Android (Java, XML), iOS (SwiftUI), ML Recommendation Engine* **Mar. 2025 – Present**

- Built an assessment platform offering IQ, psychometric, and career-aptitude tests helping users identify strengths and optimal career paths based on skill profiles.
- Integrated a personalized ML recommendation engine matching users to career paths; achieved 80%+ test completion rate and strong user satisfaction scores. [Play Store] — [App Store]

Achievements

15+ Applications Deployed on Play Store and App Store | *Portfolio* **2024 – Present**

- Independently designed and developed 15+ production-grade mobile applications on Google Play Store and Apple App Store, spanning e-commerce, productivity, social, and utility domains.
- Demonstrated end-to-end mobile application development ownership from requirement analysis and UI/UX design through development, testing, deployment, and post-launch maintenance.

Microsoft Azure Data Fundamentals (DP-900) | *Microsoft* **June 2022**

- Earned Microsoft official certification validating foundational knowledge of cloud data concepts, Azure data services, and relational and non-relational data workloads.

Flipkart GRiD 5.0 – Software Development Track | *Flipkart / Unstop* **2023**

- Qualified Level 1.1 of Flipkart GRiD 5.0, a national-level engineering competition assessing applied software development, data structures, and e-commerce technology. View Certificate
