Professional Summary

Android & iOS Engineer with 2+ years of hands-on experience shipping production mobile applications using Kotlin, Java, and SwiftUI. Delivered 15+ live apps on Google Play Store and Apple App Store with real user bases. Proficient in REST API integration, MVVM architecture, Agora SDK for real-time communication, and secure payment gateway implementation. Experienced in Agile/Scrum workflows and cross-functional team collaboration. Additional backend expertise in Java, Spring Boot, and AWS cloud infrastructure.

Experience

Hawkscode Pvt. Ltd.

Jan. 2025 – Present

Software Developer

Jaipur, Rajasthan

- Engineered and shipped 12+ production Android (Kotlin/Java) and iOS (SwiftUI) apps across social, e-learning, and luxury transport domains, live on Play Store and App Store.
- Integrated Agora SDK for real-time voice room features supporting 100+ concurrent users, and implemented secure payment gateways (Razorpay/Stripe) across 3 client projects.
- Built role-based authentication systems and RESTful API integrations using Retrofit and OkHttp, following MVVM architecture and Clean Code principles.
- Collaborated in Agile/Scrum sprints with cross-functional teams of 5–8 members, consistently delivering features on schedule across multiple parallel client projects.

Ahead Websoft Technology

Feb. 2024 – May 2024

Android Developer Intern

Gurgaon, Haryana

- Built and enhanced Android features using Java and Kotlin on 2 live production projects, covering the full app development lifecycle from design to Play Store deployment.
- Participated in code reviews and sprint planning with a senior developer team, improving code quality and reducing bug backlog by 20%.

Brudite Pvt. Ltd.

Aug. 2023 – Jan. 2024

Associate Software Developer Intern

Jaipur, Rajasthan

- Developed RESTful backend services using Java and Spring Boot microservices, and built dynamic frontend interfaces with Angular and TypeScript for end-to-end application delivery.
- Deployed and managed cloud infrastructure on AWS (EC2, S3, RDS), improving application uptime and scalability for a B2B SaaS platform.

Celebal Technologies

May 2023 – Aug. 2023

Data Engineer Intern

Jaipur, Rajasthan

- Processed and transformed large-scale datasets using SQL and PySpark, completing all analytical tasks within sprint deadlines across 3 data pipeline projects.
- Built and monitored AWS data pipelines, improving data workflow efficiency and reducing manual processing time by approximately 30%.

Projects

Funzo: Social & Gaming Hub | Kotlin, Java, XML, Agora SDK, MVVM, Firebase

Nov. 2025 – Jan. 2026

- Developed a real-time social gaming platform with Agora-powered live voice rooms supporting 100+ concurrent multi-user sessions; achieved 4.2-star rating on Play Store at launch.
- Implemented interactive mini-games (Ludo), Clan/Family social systems, and gamified SVIP progression hierarchy to drive user engagement and retention.
- Applied MVVM architecture with LiveData and Repository pattern, reducing codebase coupling and improving testability. ▶️ Play Store

EasyShiksha: E-Learning & Internship Platform | Android (Java, XML), iOS (SwiftUI), REST API

Feb. 2025 – Present

- Developed cross-platform Android and iOS apps for a leading ed-tech platform with 1,000+ courses and 50,000+ registered users across internship and certification programs.
- Integrated payment gateway, user certification modules, and internship tracking features; maintained 99%+ crash-free session rate on both platforms.
- ▶️ Play Store | 🍏 App Store

Thrive Black Car: Luxury Transport | Android (Kotlin, XML), iOS (SwiftUI), Google Maps API

Aug. 2025 – Present

- Built a dual-role (customer and driver) chauffeur booking app for the Atlanta market, delivering real-time ride scheduling and driver dispatch across Android and iOS.
- Implemented Google Maps SDK integration for live tracking, ETA calculation, and route optimization, reducing average booking flow to under 3 taps.
- ▶ Play Store | 🍏 App Store

Career Helper: Test & Consult | *Android (Java, XML), iOS (SwiftUI), ML Recommendation Engine* Mar. 2025 – Present

- Built an assessment platform offering IQ, psychometric, and career-aptitude tests, helping users identify strengths and optimal career paths based on skill profiles.
- Integrated a personalized recommendation engine matching users to career paths, with a test completion rate of 80%+ and positive user feedback on relevance.
- ▶ Play Store | 🍏 App Store

Technical Skills

Mobile: Android (Java, Kotlin, XML, Jetpack Compose), iOS (SwiftUI, UIKit, Storyboard), MVVM, MVC

Libraries & SDKs: Agora SDK, Retrofit, OkHttp, Firebase, Google Maps SDK, Razorpay, Glide, Coroutines

Backend: Java, Spring Boot, Microservices, REST API, SQL, Angular, TypeScript

Cloud & DevOps: AWS (EC2, S3, RDS), Microsoft Azure, CI/CD, Git, GitHub

Tools: Android Studio, Xcode, IntelliJ IDEA, Postman, VS Code, JIRA

Achievements

15+ Applications Deployed on Play Store & App Store | *Portfolio* 2024 – Present

- Independently designed and developed 15+ production-grade mobile applications on Google Play Store and Apple App Store, spanning domains such as e-commerce, productivity, and utilities.
- Demonstrated end-to-end frontend ownership — from UI/UX design and development to app store deployment, covering the full product lifecycle as a Mobile App Developer.

Microsoft Azure Data Fundamentals (DP-900) | *Microsoft* June 2022

- Earned Microsoft's official certification validating foundational knowledge of cloud data concepts, Azure data services, and relational/non-relational data workloads.

Flipkart GRiD 5.0 – Software Development Track | *Flipkart / Unstop* 2023

- Qualified Level 1.1 of Flipkart GRiD 5.0, a national-level engineering competition assessing applied software development, data structures, and e-commerce technology. [View Certificate](#)

Education

Poornima Institute of Engineering and Technology Sep. 2020 – May 2024

Bachelor of Technology in Computer Science | CGPA: 8.4 / 10

Jaipur, Rajasthan

- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, Computer Networks, Software Engineering.
- **Key Skills Developed:** Java, Kotlin, SwiftUI, Android Development, REST API design, and cloud fundamentals through coursework and 4 industry internships completed during the program.
