Professional Summary

Results-driven Software Developer with 2+ years of experience building cross-platform mobile applications for Android (Java/Kotlin) and iOS (SwiftUI/Storyboard). Proven track record of delivering production-grade apps on the Google Play Store and Apple App Store. Skilled in full-stack development with Spring Boot and Angular, and hands-on experience with AWS and data engineering using PySpark and SQL.

Experience

Hawkscode Pvt. Ltd.

Jan. 2025 – Present

Software Developer

Jaipur, Rajasthan

- Develop and maintain production Android (Java/Kotlin) and iOS (SwiftUI/Storyboard) applications, with a strong focus on performance optimization and UI/UX quality.
- Collaborate with cross-functional teams to deliver feature-rich apps including social platforms, e-learning portals, and luxury transport booking systems deployed on Play Store and App Store.
- Implement real-time communication features using Agora SDK, secure payment gateways, and role-based authentication flows across multiple live client projects.

Ahead Websoft Technology

Feb. 2024 – May 2024

Android Developer Intern

Gurgaon, Haryana

- Built and enhanced Android features using Java and Kotlin on live production projects, gaining hands-on experience in the full app development lifecycle.
- Collaborated with senior developers to deliver seamless user experiences and contributed to code reviews and sprint planning.

Brudite Pvt. Ltd.

Aug. 2023 – Jan. 2024

Associate Software Developer Intern

Jaipur, Rajasthan

- Developed RESTful backend services using Java and Spring Boot, and built dynamic frontend interfaces with Angular and TypeScript for end-to-end application development.
- Deployed and managed cloud infrastructure on Amazon Web Services (AWS), improving application scalability, reliability, and uptime.

Celebal Technologies

May 2023 – Aug. 2023

Data Engineer Intern

Jaipur, Rajasthan

- Developed proficiency in SQL and PySpark to process and transform large-scale datasets, completing all assigned analytical tasks within deadlines.
- Gained practical exposure to AWS data pipelines, enhancing data workflow efficiency and demonstrating strong analytical and problem-solving capabilities.

Projects

Funzo: Social & Gaming Hub | Kotlin, Java, XML, Agora SDK

Nov. 2025 – Jan. 2026

- Developed a real-time social platform featuring Agora-powered live voice rooms for gaming and community interaction, supporting concurrent multi-user sessions.
- Implemented interactive mini-games (Ludo), Clan/Family systems, and a gamified progression hierarchy (SVIP) to drive user engagement and retention.
- ▶ View on Google Play Store

EasyShiksha: Learning & Internship Platform | Android (Java, XML), iOS (SwiftUI)

Jan. 2025 – Present

- Collaborated on cross-platform development for a leading educational app supporting 1000+ courses and internship programs for a large active user base.
- Implemented user certification modules, secure payment gateway integrations, and internship tracking features on both Android and iOS.
- ▶ Play Store | 🍏 App Store

Thrive Black Car: Luxury Transport | Android (Kotlin, XML), iOS (SwiftUI)

Jan. 2025 – Present

- Built a professional chauffeur booking ecosystem for both customers and drivers, delivering a premium luxury transport experience for the Atlanta service region.

- Developed dual-role authentication flows, real-time ride scheduling, and driver dispatch features across both mobile platforms.
-  Play Store |  App Store

Career Helper: Test & Consult | *Android (Java, XML), iOS (SwiftUI)* **Jan. 2025 – Present**

- Developed an assessment-driven application offering IQ, psychometric, and career-advancement tests to help users identify their strengths and suitable career paths.
- Integrated personalized recommendation engines to match users with optimal career paths based on individual skill profiles and test results.
-  Play Store |  App Store

Technical Skills

Mobile: Android (Java, Kotlin, XML), iOS (SwiftUI, Storyboard), Agora SDK, Google Play, App Store

Backend: Java, Spring Boot, Microservices, SQL

Cloud & DevOps: Amazon Web Services (AWS), Microsoft Azure

Tools: Android Studio, Xcode, IntelliJ IDEA, Spring Tool Suite, VS Code, GitHub

Certifications

Microsoft Azure Data Fundamentals (DP-900) | *Microsoft* **June 14, 2022**

- Earned Microsoft's official certification demonstrating foundational knowledge of core data concepts and Microsoft Azure data services.

Education

Poornima Institute of Engineering and Technology

Bachelor of Technology in Computer Science

Sep. 2020 – May 2024

Jaipur, Rajasthan
